

## Call for participation in a 'Blended Intensive Programme' (BIP), Erasmus+ Programme, at Polytech Orleans (France)

A call for proposals is hereby launched for the participation in a 'Blended Intensive Programme' (BIP) within the framework of the Erasmus+ programme, entitled '**Digital tools for built heritage**'.

The partly online and partly face-to-face training will take place over 5 days at Polytech Orléans from **16 to 20 June 2025**.

Required language: English (**level B2**)

Participation is open to students in the second year of the Master course in Engineering for Building Retrofitting from the DICCA department of the Polytechnic School for a maximum number of 5 students.

The same criteria that apply to the selection of Erasmus+ mobility for study/placement 25-26 will be used for the selection.

At the end of the mobility period, the students, after having submitted all the necessary documentation, will be able to obtain 5 CFU, which will be recognised as curricular credits for *Elective Courses*.

A contribution to the expenses incurred from EC funds is foreseen only for the days of the mobility, while no contribution is foreseen for the virtual component.

For information contact Prof. Chiara Calderini ([chiara.calderini@unige.it](mailto:chiara.calderini@unige.it)) and send your application by e-mail to [erasmus.ingegneria@unige.it](mailto:erasmus.ingegneria@unige.it) attaching self-certification of examinations and identity document by 12 noon on 12/03/2025.

The selection interview, which is compulsory, will be held on 18/03/2025 according to the procedure and timetable that will be published online on the Polytechnic School website.

Please find attached an information leaflet.
